

Emergency Medical Sciences EMT Basic Course

Emergency Medical Sciences -Basic-

Emergency Medical Sciences (EMT)-Basic is an introductory survey of emergency medical services including medical legal/ethical aspects, patient assessment, care of wounds and fractures, airway maintenance, patient transportation, medical and environmental emergency, childbirth, and extrication. The program prepares graduates for employment with ambulance services and in acute emergency facilities. Graduates are eligible to apply to take the examination for state and national certification as an EMT-B.

Application Procedures and Deadline

Classes are admitted every semester. Class size is limited; and all applicants are not accepted for participation.

All applicants will have an equal opportunity regardless of race, age, disability, sex, creed, religion, or nationality. Applicants with special needs due to disability must make this fact known prior to admission, so that necessary accommodations can be made. Because of the nature of the profession it may not always be possible to accommodate students with severe disabilities.

Acceptance Procedures

Classes are held each semester. The selection process for admission is open through general registration and is based on first come, first enrolled until class capacity is reached. Only students who meet special admission requirements will be allowed to register. It is the students' responsibility to submit all documents required for acceptance to the EMT Basic Program. Upon acceptance into the program students must submit evidence of the following in order to begin classes:

1. Signed Functional Ability Acknowledgement Form.
2. Hepatitis B Series or Signature on SEARK Vaccination Waiver Claim Form.
3. Drug Screen.
4. Criminal Background check.
5. P.P.D. Skin Test or Chest X-Ray.

Students enrolled in Allied Health programs with a clinical component will be assessed a fee for malpractice insurance.

NOTE: Random drug screening may be utilized at any time during the course of the program at the students' expense.

Rev: 9/20/19

Emergency Medical Sciences Basic
